

Data Disclosure Agreement CAWS Vernal Pool Monitoring Program

As a volunteer in the CAWS Vernal Pool Monitoring Program, I appreciate the potential sensitivity of the data that I will be collecting during annual vernal pool monitoring inspections.

I understand that the premature and unauthorized release of these data could jeopardize the long-term success of the program, since it could discourage landowners from participating in the program.

Therefore, I agree to make no unauthorized release (i.e., qualitative, quantitative, written, oral) of any monitoring data that I collect for the program.

I agree that only the CAWS Board of Directors can authorize such data disclosure.
